

FUTURA 3D 130 ADDITIONAL FASTENING MECHANISMS AND ACCESSORIES

Functions

The additional fasteners make it possible to add further fastening elements that either increase the dimensions of the casement or that can be used when locking points are needed on the cross beams or hinge-side upright.

On the basis of the dimensions of the casement, additional fasteners (for $H > 1200$ mm and $W > 1000$ mm) and the additional arm (which is mandatory for $W > 1000$ mm) are to be used in combination with this mechanism.
