

## ANTA ABBINATA FUTURA 3D 130

### Funzioni

Adattatore per cerniere anta abbinata ad anta ribalta FUTURA 3D 130.

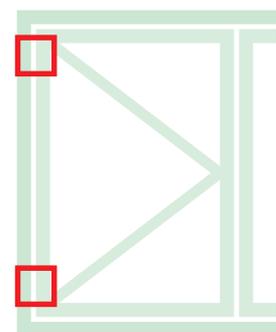

L'adattatore permette di trasformare il set delle cerniere anta ribalta in cerniere per anta abbinata, mantenendo stesso design, regolazioni, dimensioni e portate realizzabili dell'anta principale.

### Materiali

Corpo cerniere in alluminio estruso e ottone.

Supporti in zama con finitura GS Silver Plus (fino a 500 h di resistenza alla corrosione).

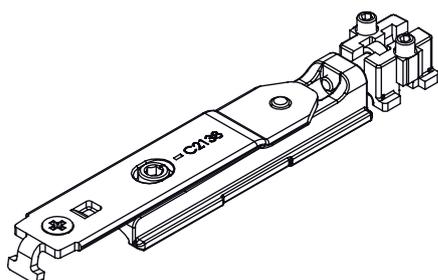

Perni, viti e grani in acciaio inox.
