Caratteristiche Tecniche

Con la cremonese Unica è possibile avere la stessa estetica di manovra su infissi per apertura Interna, apertura Esterna, Persiana Anta Ribalta. La cremonese Unica, fornita destra, ha interasse di fissaggio 104 mm. Disponibile sia con manovra bidirezionale, che monodirezionale, con scatto di posizionamento del manico a 0°, 90° e 180° e nella versione APEX. La Cremonese Unica Apex è applicabile su profili persiana o ad apertura esterna e non richiede l'impiego dei kit di collegamento interno. Il sistema Apex, brevettato Giesse, si applica in maniera facile e veloce sul profilo anta dopo avere realizzato le opportune lavorazioni. L'escursione possibile del cursore telescopico da 16 mm a 35 mm. I perni da impiegare per trasferire il moto dai cursori della Cremonese all'astina dipendono dalla specifica geometria del profilo e vanno scelti tra quelli Giesse disponibili.
