

# Dampseal:

High quality, long lasting dampseal to protect against draught and damp.

Schlegel have designed push-in and slide-in flashing used as a barrier to prevent moisture and currents of air damaging the reveal. It allows quick and easy installation by incorporating rigid extruded profiles for insertion into the standard timber kerf and aluminium t-slot typically used for seals. The application method prevents the potentially hazardous practice of holding flashing in place while stapling it to the product.

## Product Code

DAMPSEALSEW	T-slot for Alum	Black	30 metre roll
DAMPSEALSEW P7	Kerf for Timber	Black	30 metre roll
